An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claim 11.

Though the claims in the communication filed 7-7-2003 were elected with traverse, applicant only provided arguments stating where the claims should be classified and did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The following is an examiner's statement of reasons for allowance: The arguments rendered in the communication filed 1-9-2004 are deemed to be persuasive and these claims have been passed to issue. Okuda et al shows pads 11 only formed between memory banks and CTL0 and VDL2 as Horiguchi et al are described as circuits. Morgan and Abedifard only show pads on one side region of the memory bank structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
